

Global Research and Internship Program (GRIP)

A 6-month immersive pathway to global research, leadership, and career success.

Academics alone are no longer enough for career success

Students face an uncertain volatile market and intense competition

Lack of real-world exposure leaves students unprepared.

Many talented students miss out on opportunities due to limited visibility.

GRIP bridges the gap between classroom learning and real-world success.

GRIP is a six-month global research and internship program that gives ambitious students real-world corporate, social, and leadership exposure—preparing them to stand out in top university admissions and careers.

**Designed for
ambitious
students who
want more than
academics.**

**Provides
structured
exposure to
corporates,
research, social
innovation, and
mentorship.**

**Equips students
with skills that
global
universities and
employers truly
value.**

**Alumni include
UN leaders,
CEOs &
technologists**

Immersive learning experiences that set students apart

1. Corporate Immersion

- Global case studies & problem-solving tailored to student majors.
- Exposure to cutting-edge strategies and innovation.

2. Port - Global Opportunities

- Student profile for showcasing competencies & achievements.
- Enhances global visibility for admissions & careers

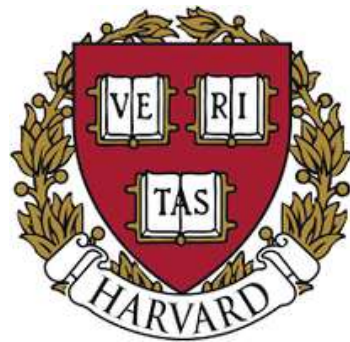

3. CXO Shadowing (Top 10%)

- Elite students shadow senior CXOs.
- Rare first-hand insight into decision-making and leadership.

4. Social Start-ups

- Students co-create ventures addressing real social challenges.
- Develop entrepreneurship, innovation & social impact

Over 50% of GRIP students gain access to global opportunities

Trusted by the best schools to enable their students gain global exposure

“This initiative is a step towards bridging the gap between classroom learning and global responsibility—it is exactly the kind of future-facing education our students need.”
