

PORT: Helping Your Students Find & Reach Global Opportunities

Your students face global opportunities; but lack a clear path to reach them.

Most students are ambitious and want to pursue global opportunities

Many deserving students miss out for lack of access and guidance

Institutions don't have a data-driven system to guide every student

PORT helps them secure global opportunities — with life-changing outcomes

Port is a smart student portfolio and opportunity-matching platform that helps institutions showcase their students' achievements, guide them with data-driven insights, and connect to global opportunities and universities where they truly belong.

**Structured
portfolio building
- showcasing
academics,
projects &
internships.**

**Exclusive access
to global
internships,
summits (UN,
Davos) & Social
Start-ups.**

**Smart algo
analyzes goals &
gaps. Showcases
profiles for
admissions &
opportunities**

**Alumni include
UN leaders,
CEOs &
technologists**

A guided journey from self-discovery to global opportunities.

1. Share your goals

Countries and subjects that you want to pursue for future opportunities

2. Build a Standout profile

Showcase achievements in academics, projects, sports & awards. Gain endorsements.

3. Analyze Goals & Gaps

Discover strengths and identify profile gaps. Add SOP, LOR, and psychometrics to profile.

4. Access Global Openings

Step into global internships, projects & programs. Targeted skills colleges & careers value.

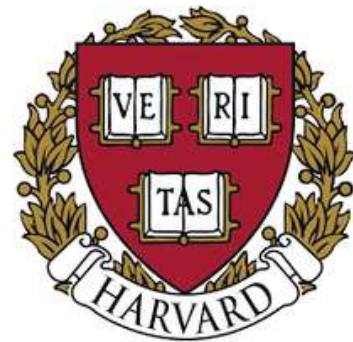

5. Unlock BestFit Colleges

Smart algorithm identifies BestFit colleges. Tailored advice via EVA, the AI counsellor.

6. Be Visible Globally

We showcase your profile to global teams — get noticed for offers and scholarships.

Over 50% of students on PORT gain access to global opportunities

Trusted by the best schools to enable their students

“This is exactly the kind of future-facing education our students need.”
